

Table 3.1 from (2010PU04): References for  ${}^2\text{H}(n, \gamma){}^3\text{H}$  since 1987

References	$E_n$ (keV)	Comments
(1988AL29)	Slow	$\vec{n}$ beam; studied asymmetry and parity violation
(1988KO07)	Thermal	$\vec{n}$ beam; measured $\gamma$ -ray polarization, obtained evidence of meson exchange currents
(1988AB04)	Thermal	Somewhat expanded version of (1988KO07); includes ${}^3\text{He}(n, \gamma){}^4\text{He}$
(2008FIZZ)	Thermal	Measured neutron capture cross section for large number of isotopes; compared with earlier measurements
(1998NA15, 2006NA25)	30.5, 54.2, 531	Measured capture cross section; evaluated astrophysical aspects
